

Exciting new supported employment options: **Supported Internships**

Great opportunities for learners with learning difficulties
to transition into work.

What?

Supported internships are the perfect stepping stone for learners to transition into the world of work.

Where?

On the supported internship the learner will be based primarily at the employers premises. The learner will also attend the college for employability skills and maths and english.

When?

The supported internship will begin in September 2017 and last for one year. It is expected that after this year the learner will progress onto full-time paid employment or an apprenticeship.

How?

The Supported internships allow for an accessible transition into work providing the learner with on-the-job support via a job coach, social skills support and a dedicated key worker.

Who?

Suitable for learners with previous E3/L1 or above qualifications in related areas of study.
