Information for the Public		
Spark4Kids offers computer coding sessions for children, from absolute beginners who have never written a line of code to more experienced kids looking to take their coding skills to the next level. Our coding courses encourage children to experiment, be comfortable with making mistakes whilst exploring, and learning from these experiences - in their own time, and at their own pace.		
Spanning age groups from 5 years to 14 years, we run all-day coding workshops during school holidays, and 1-2 hour coding sessions at weekends during term-time. Visit us at www.spark4kids.com to find out more.
