# Foreword

## A message from Jasmine Ali, Cabinet member for Children, Schools and Adult Care

### Dear student

#### Your future after Year 11

Over the coming months you will be making important choices about what you will do after year 11. We want to make sure you have either a job, training or a college place to go to after school.

We know you have been living through a strange and difficult time, with many uncertainties and frustrations. I want you to know that Southwark Council is working flat out with schools, colleges and employers to provide you with as many opportunities as we can.

In September 2020 we will launch a new website which will give you live information about up to the minute opportunities. In the meantime, this brochure will help you through the process. It tells you all about the options available to you in Southwark.

Whether you want to start an apprenticeship, take up a traineeship, do a technical or professional course or go on to A Levels we have opportunities for every school leaver who wants to learn, work or train. Whatever your future holds, there's something in Southwark for you.

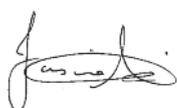

Do have a look at the great apprenticeship scheme the council runs. As an apprentice you can earn and learn at the same time. And every year we offer lots of different placements. As a Southwark Council apprentice, you will work towards a nationally recognised qualification, and will get the London Living Wage. If you are interested, you can find out more at [southwark.gov.uk/apprenticeships](https://southwark.gov.uk/apprenticeships)

Don't forget each sixth form has its own application process, either via its website or a specific form, so make sure to check each school's individual page in this brochure. We encourage you to attend open days so that you can tour the sixth forms or colleges and meet the teachers.

Whatever you chose to do, the most important thing is to spend some time discussing with your teachers and family or carers, to decide what will be right for you. This is your chance to express your skills, interests and passions!

Whatever you are thinking of doing, you can get more information by emailing the Post 16 Service. [post16service@southwark.gov.uk](mailto:post16service@southwark.gov.uk)

We wish you the very best, and good luck!

#### Jasmine Ali

Cabinet member for children and schools  
Southwark Council

## Deciding what you want to do next

### Post 16 timetable for September 2021 intake

<b>September/ October 2020</b>	<ul style="list-style-type: none"> <li>› Attend sixth form/college open events</li> <li>› Consider all your options: vocational or academic study, college or school, A levels or BTEC, traineeship or apprenticeship</li> <li>› Your in-school Careers Adviser can talk to you about your options and help you make applications</li> </ul>
<b>November 2020</b>	<ul style="list-style-type: none"> <li>› Use your school careers library to research career ideas</li> <li>› Talk to relatives and teachers</li> <li>› Visit <a href="https://nationalcareersservice.direct.gov.uk">nationalcareersservice.direct.gov.uk</a> for impartial and practical help</li> <li>› Continue to attend sixth form/college open events</li> <li>› Revise for your mock exams</li> <li>› Attend any sixth form open day events</li> <li>› Phone colleges that you are interested in to get an application pack, or check to see if they can be downloaded from the website</li> <li>› Start to apply to colleges and sixth forms. Some colleges fill up quickly, so get application forms in early</li> </ul>
<b>December 2020</b>	<ul style="list-style-type: none"> <li>› Need help? Speak to the Careers Adviser in your school</li> <li>› Ensure all your application forms are complete and have been submitted</li> <li>› Sit your mock exams</li> </ul>
<b>January 2021</b>	<ul style="list-style-type: none"> <li>› Sit your mock exams</li> </ul>
<b>February 2021</b>	<ul style="list-style-type: none"> <li>› Prepare for interviews</li> </ul>
<b>March 2021</b>	<ul style="list-style-type: none"> <li>› Attend interviews when invited</li> </ul>

<b>April 2021</b>	<ul style="list-style-type: none"> <li>› Open a bank account if you do not have one, as you will need one when you are at college</li> <li>› Create a revision plan and stick to it. Keep revising</li> </ul>
<b>May 2021</b>	<ul style="list-style-type: none"> <li>› Your GCSE exams will start</li> <li>› Get your CV ready to look for part-time work. This is really important if you want to get an apprenticeship; check the entry requirements</li> <li>› Keep revising</li> </ul>
<b>June 2021</b>	<ul style="list-style-type: none"> <li>› Continue to attend interviews; If you cannot attend, ring and reschedule the interview</li> <li>› Continue to revise</li> <li>› Keep an eye out for interesting apprenticeships; check the entry requirements</li> <li>› Look for part-time work after the exams</li> </ul>
<b>July 2021</b>	<ul style="list-style-type: none"> <li>› Have a break</li> <li>› Try to get a part-time job and develop your employability skills</li> <li>› Get involved in summer activities</li> </ul>
<b>August 2021</b>	<ul style="list-style-type: none"> <li>› Make sure you are around to collect your GCSE results from school</li> <li>› Attend enrolment at your chosen school or college</li> <li>› Continue to apply for apprenticeships; if you meet the entry requirements</li> </ul>
<b>September 2021</b>	<ul style="list-style-type: none"> <li>› Attend enrolment at your chosen school or college if you haven't already</li> <li>› Apply to the 16 to 19 Bursary Fund if you are eligible</li> <li>› Prepare for and attend apprenticeship interviews</li> </ul>

## Post 16 Service

Most young people in Southwark move on to education in a sixth form or further education college each year in the September after they turn 16, or they may start an apprenticeship or other employment with training. All school leavers must stay in some type of education or training until they are 18.

We know though that some 16 and 17 year old young people may find themselves out of education and we are here to help. The Post 16 service in Southwark Council works with young people not in education to make sure that they are offered advice and guidance to support them back into education. We work closely with colleges, advice and support agencies to find the right support for each young person to help them move forward with their life and career goals. This can include exploring routes into courses, apprenticeships and traineeships based on each individual's starting point.

Please use our [Post 16 Survey](#) form to let us know what you are up to. If you tell us that you are not in education or training we will get in touch and signpost you to advice and guidance on your options. You can also email us at [post16service@southwark.gov.uk](mailto:post16service@southwark.gov.uk)

Check Southwark Post 16 website for latest developments and to stay connected as you progress towards higher [education or employment](#)

You can also find useful information at the [National Careers Service](#)

## Information on Raising the Participation Age (RPA)

### What is 'Raising the Participation Age' [RPA]?

All young people have a duty by the Education Skills Act (2008) to participate in education until their 18th birthday. Supported by parents/ carers, and schools, the Government expects each young person to make an informed decision about how you wish to participate.

### Why was it introduced?

By staying in learning and training you can gain the qualifications and skills you need to help you to succeed.

Advantages include:

- › Making it easier to find and stay in a job
- › Having the ability to earn and give you a greater choice of career path
- › Being able to compete in the future local job market; providing pathways to opportunities where you can develop your qualifications and skills further in order to support your future career aspirations for example, higher education (university) or higher apprenticeships
- › You will have a greater chance to develop the knowledge and practical skills that employers are looking for.

### Does this mean staying at school until I am 18?

Once you complete your GCSEs and secondary education, there are a number of options available for you to choose from:

- › Continue in full time education or college
- › Start a work based learning programme such as an apprenticeship
- › Start full time work alongside part time learning which leads to an accredited qualification
- › Volunteering for a minimum of 20 hours a week alongside part time learning which leads to an accredited qualification
- › If you have your own business and are self employed, you can combine this with part time learning which leads to an accredited qualification.

### What duty does Southwark Council have?

- › Promote the effective participation in education and training of 16 and 17 year olds in our area with a view to ensuring that those persons fulfil the duty to participate in education or training
- › Make arrangements to track the activity of 16 and 17 year olds, and identify those who are not participating in education or training or who have left provision, to enable us to offer support as soon as possible through the Post 16 Service
- › Identify 18 year olds who need support to engage with education or find work and who aren't already receiving support from their Jobcentre Plus.

## Choosing the right pathway for you

### How to choose?

You may already have an idea about your future journey, such as applying for higher education or a particular career. Some careers and university courses require you to have qualifications in specific subjects. Speak to your careers adviser at school or an education and training adviser. Based on your talents and needs they can advise on the best decision for you.

If you are unsure, it is usually best to go with subjects you are likely to do well at and enjoy. You will still need to check what you can do with these subjects and try to keep your options open.

The following checklist may be useful for you to consider when thinking about which pathway is right for you:

- › How does the course build on your strengths and interests?
- › What will you be doing on the course and what will the workload be like?
- › Where will the course lead you to and how do you think the qualification will bring you closer to your career goals?
- › What will you need to do in order to achieve a good result?
- › Is there someone you know who you can talk to about this option?
- › Are there any other similar opportunities you could consider?

### Foundation, pre-apprenticeship programmes and short courses

If you leave school in year 11 with no or few GCSEs, BTEC or other level 2 passes, you may need to do some short courses or a pre-apprenticeship course.

A pre-apprenticeship course is a stepping stone to get into the industry of your choice. Completion of a pre-apprenticeship course will help to prepare you for the working environment in the selected industry, give you some basic skills, or improve your existing skills. This will help you to progress onto a level 2 course or a traineeship. There are also training providers who offer short courses or work experience to help you develop your employability skills or gain other types of qualifications relating to specific industries e.g. CSCS (Construction Skills Certification Scheme) card, first aid, football coaching.

### Applied general qualifications - BTECs level 1 to 3 or National Vocational Qualifications (NVQs)

These offer broad preparation for and introduction to a vocational area such as health and social care, travel and tourism, engineering, and performing arts. They combine academic study with practical learning. Some students study a BTEC level 3 alongside two A level courses.

### Technical level qualifications

These prepare you for a specific career route such as engineering, hospitality, computing, animal care or accounting.

<https://www.gov.uk/government/news/education-secretary-accelerates-t-level-roll-out>

Tech Levels are 2 year Level 3 qualifications - equivalent to A levels; that lead to a specific occupation and are available in a whole range of different areas from agriculture, horticulture & animal care to retail, hospitality & commercial enterprise. They are designed by professional bodies, employers and universities so that they are relevant and up to date. They include at least 3 months work experience and the opportunity to build transferable skills and knowledge related to the job area. You can progress on to apprenticeships, jobs and university after completion of Tech Levels.

Students who take one or more technical levels, a Maths qualification at level 3 and undertake an extended project can achieve the Technical Baccalaureate.

<https://www.gov.uk/government/publications/providers-selected-to-deliver-t-levels/further-providers-selected-to-deliver-t-levels-from-the-academic-year-2022-to-2023>

Who will be delivering T Levels from 2022/2023.

### Academic qualifications – A levels

Students now sit all A level exams at the end of two years of study, instead of taking modular exams throughout the course.

AS level results no longer count towards A level grades. No subject will have more than a 20% coursework component and most courses will be assessed entirely through exams.

### Traineeships

A traineeship is real work experience with training. These are designed to help young people aged 16 to 24 years old gain the appropriate skills and experience needed to secure an apprenticeship.

They involve work preparation, work experience, Maths and English. Unlike apprentices, trainees are not employed and can undertake the traineeship for six weeks or up to six months.

### Apprenticeships

Apprenticeships are a route for students who want to gain qualifications, progress in a chosen career and earn a salary. Apprenticeships combine paid work with learning, which usually takes place at a college. You will gain a nationally recognised qualification. At college you learn practical, work-related tasks designed to help you develop the skills and knowledge to effectively do a particular job and then put it into practice, which provides the evidence of your competency for your qualification. There are a range of different job roles and qualifications with various employers across London.

You will need to apply for an apprenticeship by completing an application form. If the employer thinks you may be suitable, you will be invited to attend an interview and possibly take an assessment test.

Apprenticeships are one to five years in length depending on the qualification level. Sometimes apprenticeships lead to a full time job at the end of it. See the government's website <https://www.gov.uk/apply-apprenticeship>

## Which pathway is right for me?

Which pathway is right for me?

What is my current level/predicted grades?	What education or training courses can I study?	What can I do after I complete the course?
5 or more GCSE passes at grades 4 to 9 including English and Maths	A levels BTEC level 3 diploma or extended diploma or other level 3 vocational course advanced apprenticeship	Progress to university, a higher or degree level apprenticeship or employment
Less than 5 GCSE passes at grade 4 or above or BTEC level 2. English or Maths at grade 3 or below	BTEC level 2 or 3 certificate, subsidiary diploma or other vocational level 2 course and Maths and English (often one year programmes)	Progress to a level 3 course, an advanced apprenticeship or employment
Grades 1 to 3 at GCSE or BTEC level 2 pass. Grades 1 to 3 at GCSE in Maths and English or Functional Skills level 1	BTEC level 2 certificate or other vocational level 2 course plus Maths and English (often one year programmes)	Progress to a level 3 course, a traineeship, an intermediate apprenticeship or employment
No GCSE, BTEC or other level 2 passes	Foundation programme or pre-apprenticeship including Maths and English (one year or less)	Progress to a level 2 course, pre-apprenticeship course, a traineeship, or employment

**There will be specific entry requirements for individual subjects and courses, and some subjects have higher entry requirements than others.**

**If you do not achieve a minimum of a grade 4 at GCSE in Maths and English or level 2 Functional Skills, you will need to continue studying Maths and/or English.**

# Apprenticeships

Apprenticeships give you the opportunity to work, learn and earn all at the same time.

You will work for a real employer alongside other experienced staff. You will be earning a salary, gaining valuable work experience and employability skills, and you will gain a qualification.

Apprenticeships are available in over 1500 job roles covering more than 170 industries, from advertising, to youth work, environmental engineering or nuclear decommissioning.

The government are looking to increase the number of apprenticeships that are available in the UK over the next few years and we are committed to increasing the number of apprenticeships available across the borough.

## Types of apprenticeship

You can apply for different types of apprenticeships based on your current skills and qualifications:

- › Intermediate level (level 2)
- › Advanced level (level 3)
- › Higher (level 4,5,6 and 7)
- › Degree (level 4 and 7)

## When can I start an apprenticeship?

If you live in England and are aged 16 or over, you can apply to be an apprentice. You can start an apprenticeship on the first day after the last Friday in June (official school leaving date in England) as long as you are 16 or become 16 before 1 September of that year. You will need to be living in England and not in full-time education.

## Entry requirements

Entry requirements are based on the level of the apprenticeship; Intermediate Level 2 will usually require 3-5 GCSEs grade 4 or above including English and Maths. Or work experience with level 2 English and Maths Functional skills qualifications. With the desired skills and qualities advertised.

Advanced level will usually require a level 3 qualification such as a two year BTEC level 3 or three A Levels. Or a level 2 with a years work experience.

Higher level apprenticeship will usually require two A levels or equivalent; with a level 3 industry specific qualification or work experience, with 6 GCSEs A-C/ 8-4 Grades including English and Maths or the equivalent in Functional Skills.

Degree level apprenticeships you will usually need to be 18 or over with GCSEs in English and Maths, three A levels and the required skills and qualities will be set by the organisation that are advertising.

## How much will I earn?

The minimum wage for apprentices aged 16 to 18 is updated yearly on the website <https://www.gov.uk/apprenticeships-guide/pay-and-conditions>

## Training and qualifications

During your apprenticeship you will also receive training to gain a nationally recognised qualification in your chosen area. Your employer will be working with your training provider to ensure the programme is structured to support you to gain the skills you need for the job.

### How do I find and apply for an apprenticeship?

Applying is easy with the find an apprenticeship website, the online vacancy site provided by the National Apprenticeship Service. You need to create an account, log all of your information and set preferences before applying, usually by completing an online application form and answering a few questions set by the employer. This resource is available at [www.gov.uk/apply-apprenticeship](http://www.gov.uk/apply-apprenticeship).

If you are in year 11 and are interested in applying for an apprenticeship you can see what is currently available and check you meet the entry requirements for each apprenticeship you are interested in on the find an apprenticeship website. <https://www.findapprenticeship.service.gov.uk/apprenticeshipsearch>. They can advise you on what you need to do to ensure you are prepared and have the right skills to apply. They also receive weekly information on apprenticeship opportunities that might be suitable for you.

**"I knew university wasn't for me. I had my A Levels under my belt but my goal was to get a job that set me up for a career straight away."**

**Fiona Keenaghan, Civil Engineering Technician**

I looked at a lot of different options, even some that weren't related to my A Levels. I found this really interesting civil engineering apprenticeship which would give me the chance to work across lots of teams and had great opportunities to move higher up in the company.

I knew there weren't many women in engineering but that didn't bother me one bit. I didn't give it any thought when I was applying and I haven't noticed any difference now I'm on site. When they offered me the role I decided to give it a shot and it's been great.

When I finished the apprenticeship I started work on my HNC. Once I've finished studying I'd like to be a project manager with CH2M. They have so many projects in London and overseas with lots of opportunities. I'd love to travel with the job if I can.

An apprenticeship has given me all the good parts of studying but with real work experience. It's connected me to opportunities I might not have had if I'd gone to university. Missing out on freshers' week was tough at the time but now I'm set up for life. I'm really glad I went for the apprenticeship when I did."

# Case study

**Fiona Keenaghan,  
Coastal Engineer**

## Where can you study or train?

At the end of year 11 you have a number of choices of where to study. It is worth doing some research into the ones you are interested in. You can find information on the internet. Open days or taster days are available to see what its really like and whether you think its right for you.

### School sixth forms

Schools sixth forms primarily teach A levels but some may offer vocational courses such as BTEC's at level 3. Most also offer resits in GCSE Maths and English if you did not get a 4 or above the first time round.

Schools sixth forms are smaller than most sixth form colleges and further education colleges.

You don't usually have to wear school uniform but smart clothing may be required and you will need to attend every day.

### Sixth form colleges

Sixth form colleges are for 16 to 19 year olds. They have on average 1,200 students studying from entry level up to A-levels and BTEC nationals.

They offer a wide range of courses including applied courses.

Although there are no sixth form colleges in Southwark there are a number in neighbouring boroughs that you can apply for.

### Further education colleges (FE colleges)

FE colleges offer a broad range of courses at all different levels including entry level, ESOL, GCSE's A levels, BTEC's, traineeships, apprenticeships and vocational and occupational courses.

FE colleges are large organisations and they may have more than one site. There is no upper age limit.

### University technical colleges (UTCs)

If you know the sector you wish to pursue a career in and want to develop specialist skills you may apply to a UTC. Technical specialisms include engineering, manufacturing, health sciences, product design, digital technologies or built environment.

### Training providers

If you did not gain any qualifications in year 11 you may need to take some short courses or combine education with employment or work experience.

There are training providers in and around the borough that can offer courses in a wide range of subjects from hairdressing to football association coaching badges, to construction skills certification scheme (CSCS) cards.

## What comes next?

### Your choices after you have completed your chosen pathway at 18

#### University

Some professions (e.g. architecture, teaching or medicine) require a degree. Many more employers now expect their staff to have high levels of education.

However going to university gives you the chance to study a subject you are passionate about. In higher education you can develop valuable skills to give you a wider range of career opportunities. University can offer an environment rich in social and cultural experiences - a chance to become more independent, broaden your horizons and try out new interests.

For a few people, choosing a subject to study is simple – you will either be clear about your career path and need a specific degree to follow it or you have always had a passion for a particular subject. However, for most there is a bewildering variety of courses, many of which involve subjects that are not taught in schools or colleges. So you need to do your research to narrow your choices down.

For more information visit:

[www.ucas.com](http://www.ucas.com)

<https://university.which.co.uk/>

#### Higher and Degree Apprenticeships

A higher apprenticeship leads to a higher education level qualification (at level 4, 5, 6 or 7). Qualifications on offer include NVQ (National Vocational Qualification) level 4, HND (Higher National Diploma) and foundation degrees.

Degree apprenticeships offer a full bachelor's or master's degree.

Apprenticeships last a minimum of one year, but at higher or degree level, you could be looking at up to four, five or six years.

Degree apprenticeships are increasing offering various roles such as accounting, advertising and aerospace engineering, with new apprenticeships being developed all the time.

You can even become a qualified solicitor. Not all jobs are represented yet, but more highly skilled apprenticeships are popping up each year.

For more information visit:

[www.getingofar.gov.uk](http://www.getingofar.gov.uk)

<https://nationalcareersservice.direct.gov.uk/>

#### Employment

At 18 you can leave education and get a full time job. You can register on various job sites or with an agency which will give you access to a number of opportunities.

For some top tips visit:

[www.whatemployerswant.org/young-people/seeking-work/overview](http://www.whatemployerswant.org/young-people/seeking-work/overview)

#### Other routes

There are other routes you can follow once you have completed further education or an apprenticeship.

You can take a gap year, look for an internship, work and take a professional qualification or a distance learning course.

For more Information visit:

[www.notgoingtouni.co.uk](http://www.notgoingtouni.co.uk)

#### Support into Employment

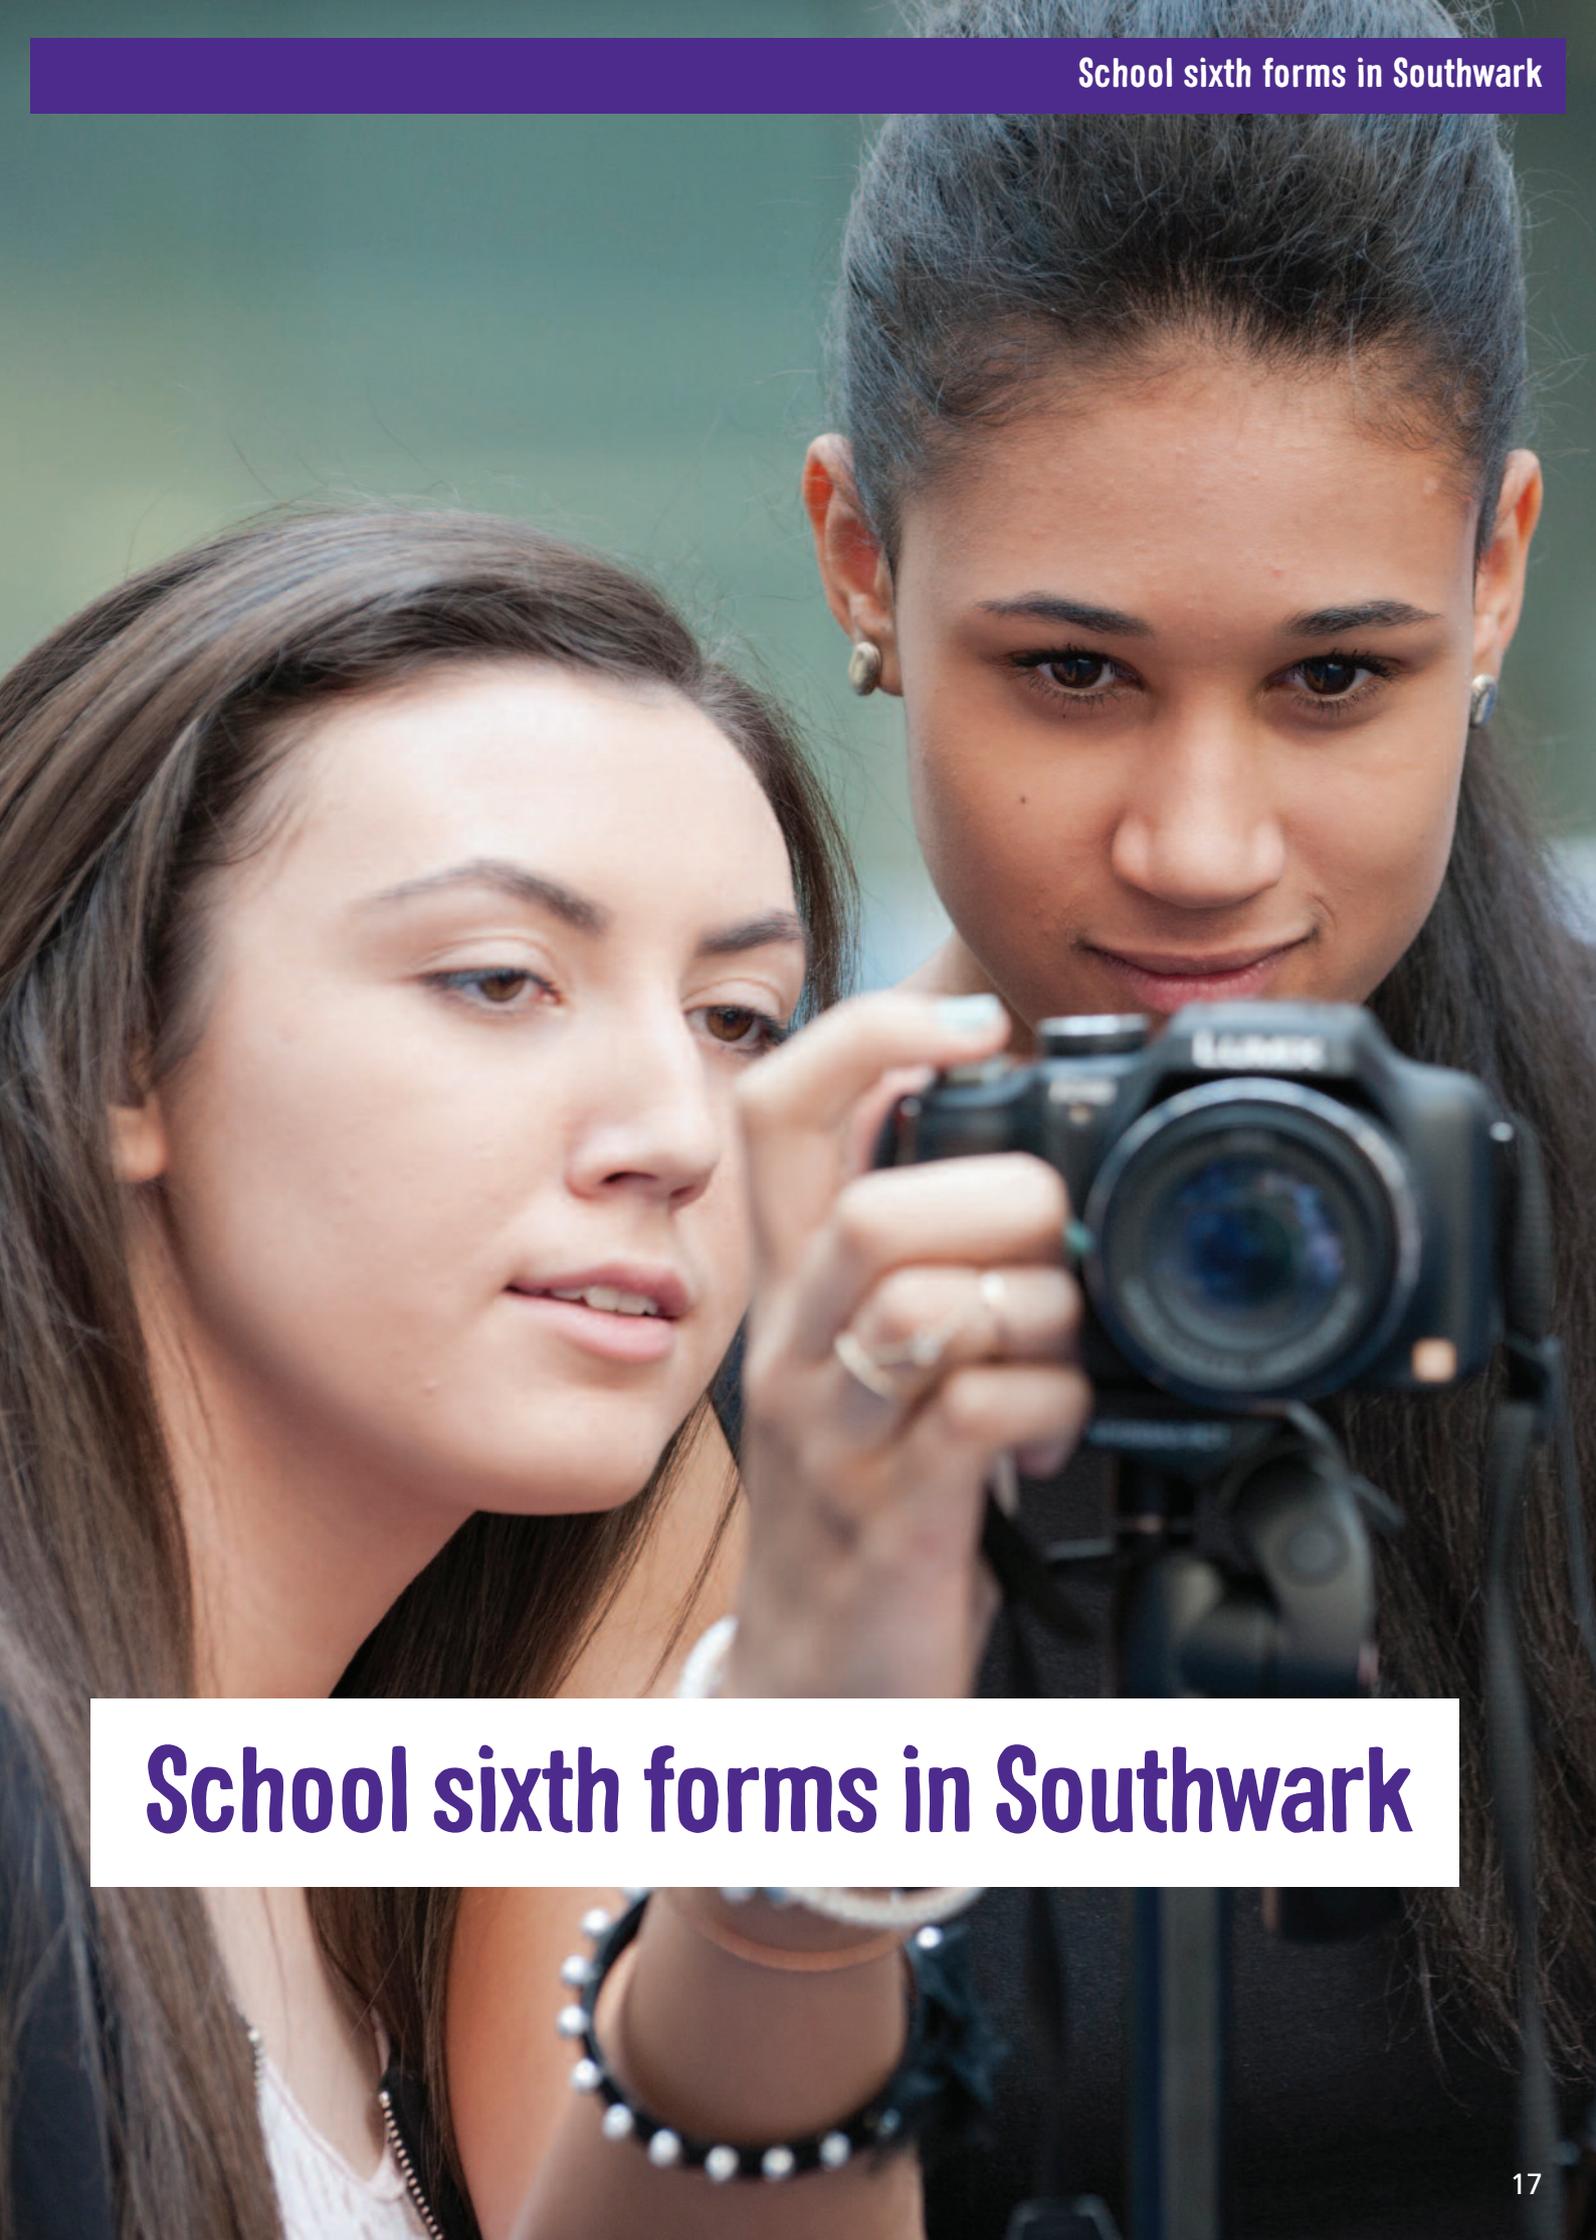

Southwark Works is a network of projects to support Southwark residents into employment.

 Harper Road, SE1 6AF

### Courses and subjects offered:

#### A LEVEL SUBJECTS

- › Art and Design
- › Biology
- › Chemistry
- › Computer Science
- › Economics
- › English Literature
- › French
- › Geography
- › Government and Politics
- › History
- › Mathematics
- › Media Studies
- › Physics
- › Psychology
- › Sociology

#### LEVEL 3 SUBJECTS

- › Professional Pathways in Business (BTEC level 3)
- › Professional Pathways in Sport (BTEC level 3)

#### GCSE RE-SIT SUBJECTS

- › English
- › Mathematics

### How to apply:

For full details on how to apply, please visit the academy's website.

### Academic entry requirements:

- › Five grades 4-9 including English and Maths at GCSE for BTEC.
- › Five grades 5-9 including English and Maths at GCSE for A level - individual subjects have specific entrance requirements. Please view the academy's website for further details.

### Published admission number:

The published admission number for year 12 is ten. This is the number of places which will be offered on an annual basis to eligible external applicants only.

## 6TH FORM OPEN DAY/EVENING DATES

For information please email [sixthform@arkglobe.org](mailto:sixthform@arkglobe.org)

## Oversubscription criteria 2021 summary:

### Contact academy for full criteria

If year 12 is oversubscribed then, after the admission of students with special educational needs where the school/academy is named on the statement or education, health and care plan, the criteria will be applied in the order in which they are set out below to determine which student should be given priority for the places available on chosen courses, providing they have met the sixth form entry and course requirements:

1. Looked after children and previously looked after children.

---

2. Children of staff at the school where there is a demonstrable skill shortage. Children of members of staff will have priority in the oversubscription criteria if the staff member is filling a post for which there is a demonstrable skill shortage. Priority will be limited to one place for each form of entry in any year.

---

3. Children who at the time of the admission have a sibling who attends the academy. For this purpose sibling means a whole, half or step-brother or half-sister or an adopted child resident at the same address.

---

4. Children of staff in the school. Where there is no demonstrable skill shortage, priority may be given where the academy is oversubscribed to a child of a person who will have been employed in the academy for two or more years at the time the application for admission is made. Priority will be limited to one place for each form of entry in any year.

---

5. Distance measurement. Priority will be given to those children who live closest to the school using a straight-line measurement taken from the academy building's main reception to the main entrance of the child's home.

---

## WHAT IS IT LIKE TO STUDY HERE?

**“I don’t think I’d be where I am now without the support of my teachers, 6th Form staff and my friends in the Globe community. I’ve always been around ambitious people here. With their passion for social justice and reaching our goals, my community at Globe has provided me with a never ending source of inspiration.”**

**Zareen Roy-Macauley, Ark Globe Sixth Form alumna, now at the University of Cambridge**

## Ark Walworth Academy **Academy**

**Headteacher:** Jessica West

 020 7450 9592

**DfE number:** 210/6909

 <http://walworthacademy.org/sixth-form/about-sixth-form>

**Specialisms:** Arts and social sciences, medical pathways, elite university coaching and apprenticeship opportunities

 sixthform@walworthacademy.org

 Shorncliffe Road, SE1 5UJ

### Courses and subjects offered:

#### A LEVEL SUBJECTS

- › Art
- › Biology
- › Chemistry
- › Economics
- › English Literature
- › French
- › History
- › Geography
- › Maths
- › Photography
- › Physics
- › Psychology
- › Sociology
- › Spanish

#### LEVEL 3 SUBJECTS

- › BTEC Applied Science
- › BTEC Business Studies
- › BTEC IT Practitioner
- › BTEC Performing Arts

### How to apply:

For full details on how to apply, please visit the academy's website.

### Academic entry requirements:

- › Minimum five grades 9 to 5 GCSEs including English and Maths at grade 5 for entry. A level pathway will require grade 6/7 in named related subjects. Please see website for full details of the specific entry criteria for each.

### Published admission number:

The published admission number for year 12 is 10. This is the number of places which will be offered on an annual basis to eligible external applicants only. If fewer than 80 of the academy's own year 11 pupils transfer into year 12, additional external pupils will be admitted until year 12 meets its capacity of 90.

## 6TH FORM OPEN DAY/EVENING DATES

Please contact the college for further information

## Oversubscription criteria 2021 summary:

### Contact academy for full criteria

Where the academy is named on a pupil's statement of special educational needs or education health and care plan, that child will be admitted by the academy. If the number of applications for admission to the sixth form is greater than the published admission number, applications will be considered as follows:

1. Looked after children and children who have been previously looked after.

---

2. Children of staff at the school where there is a demonstrable skill shortage. Children of members of staff will have priority in the oversubscription criteria if the staff member is filling a post for which there is a demonstrable skill shortage. Priority will be limited to one place for each form of entry in any year.

---

3. Children who at the time of the admission have a sibling who attends the academy. For this purpose "sibling" means a whole, half or step-brother or step-sister or an adopted child resident at the same address.

---

4. Children of staff in the school. Where there is no demonstrable skill shortage, priority may be given where the academy is oversubscribed to a child of a person who will have been employed in the academy for two or more years at the time the application for admission is made. Priority will be limited to one place for each form of entry in any year.

---

5. Distance measurement using a straight line route. A child's home will be the address at which the child normally resides and which has been notified to the academy and other relevant agencies as being the child's normal place of residence.

## WHAT IS IT LIKE TO STUDY HERE?

**"We are a harmonious and close knit sixth form where we are pushed to reach our true potential- both in academic qualifications and essential life skills"**

**Deiby Gutierrez Sanchez,  
Maths, Further Maths, Physics**

## Bacon's College A Church of England academy led by the United Learning Trust in partnership with the SDBE

**Headteacher:** Mr James Wilson

 020 7237 1928

**DfE number:** 210/6911

- › Graphic Design
- › History
- › Mathematics
- › Media Studies
- › Physics
- › Product Design
- › Psychology
- › Religious Studies
- › Sociology
- › Spanish
- › Textiles

#### LEVEL 3 SUBJECTS

- › Business Studies (Single Award)
- › IT (Double Award)
- › Media (Double Award)
- › Sport and Physical Activity (Double Award)

#### GCSE RE-SIT SUBJECTS

- › English
- › Mathematics

### How to apply:

For full details on how to apply, please visit the academy's website.

### Academic entry requirements:

#### A levels

- › All students are expected to achieve a minimum of 5 GCSEs grades 5 to 9 including English Language and Mathematics with at least a grade 6 in the subjects they wish to study. Some subjects have individual minimum entry requirements which are set out in the subject information sheets.

#### Vocational

- › Students must achieve at least five higher grades, including Mathematics and English Language, with grade 5 in the vocational subjects they wish to study.
- › Most students are expected to study the equivalent of three A levels in year 12 which are reviewed at the end of the academic year before progressing into year 13.

### 6TH FORM OPEN DAY/ EVENING DATES

Please contact the college for further information

**Published admission number:**

The published admission number for year 12 is 50. This is the number of places which will be offered on an annual basis to eligible external applicants only. If fewer than 100 of the academy's own year 11 pupils transfer into year 12, additional external pupils will be admitted until year 12 meets its capacity of 150.

**Oversubscription criteria 2021 summary:****Contact college for full criteria**

If year 12 is oversubscribed then, after the admission of students with special educational needs where the school/academy is named on the statement or education health and care plan, the criteria will be applied in the order in which they are set out below to determine which student should be given priority for the places available on chosen courses, providing they have met the sixth form entry and course requirements:

- 1.** Looked after children and previously looked after children

---

- 2.** Children who, on the date of their proposed admission, will have a sibling who will then be a pupil at Bacon's College

---

- 3.** Children of qualifying members of staff

---

- 4.** Children living at a permanent address south of the River Thames with a South East London (SE) or South West London (SW) postcode on the basis of their proximity to the College – closest first

---

- 5.** Children living in any other postal area on the basis of their proximity to the College – closest first

---

**WHAT IS IT LIKE TO STUDY HERE?**

“Studying at Bacon's College is great because of the support from teachers and other staff. The opportunities provided in the sixth form to contribute to the community in the mediation team or the leadership team really help you to develop as a person. The academic and emotional support make you feel well prepared for the future. There are lots of opportunities for work experience and internships so you can really understand your options after sixth form, whether you want to go to university or an apprenticeship.”

Yaheetah Kusi-Mensah,  
studying Geography, Biology  
and Media Studies

## Harris Academy Bermondsey Academy

**Headteacher:** Rebecca Iles-Smith

 55 Southwark Park Road, SE16 3TZ

### Courses and subjects offered:

#### A LEVEL SUBJECTS

- › Art
- › Biology
- › Chemistry
- › English Literature
- › French
- › Further Mathematics
- › Geography
- › History
- › Mathematics
- › Physics
- › Religion and Philosophy
- › Sociology

#### LEVEL 3 SUBJECTS

- › BTEC Business Studies Extended Diploma

### How to apply:

For full details on how to apply, please visit the academy's website.

### Published admission number:

The published admission number for year 12 is 15. This is the number of places which will be offered on an annual basis to eligible external applicants only. If fewer than 45 of the academy's own year 11 pupils transfer into year 12, additional external pupils will be admitted until year 12 meets its capacity of 60.

### Academic entry requirements:

#### Four A levels

- › Minimum of seven 6 to 9 grades in full course GCSE subjects
- › Minimum grade 6 in GCSE English and Maths
- › Minimum grade 6 in subjects continuing to A level
- › For non-GCSE A level subjects, a minimum of grade 6 in English and a Humanities subject

#### Three A levels

- › Minimum of five 6 to 9 grades and at least a grade 6 in English and Maths
- › Minimum of grade 6 in subjects continuing on into A level
- › For non-GCSE A level subjects, a minimum of grade 6 in English and a Humanities subject

#### Vocational plus one A level

- › Minimum of five 5 to 9 grades including at least a grade 5 in English and Maths and a grade 6 in the GCSE subject wishing to be studied at A level (or grade 6 in English and a Humanities in a non-GCSE subject)

#### Vocational only and English or Maths re-sit (if GCSE below grade 5)

- › Minimum of five 5 to 9 grades including minimum grade 5 in English and/or Maths

## WHAT IS IT LIKE TO STUDY HERE?

### Oversubscription criteria 2021 summary:

#### Contact academy for full criteria

If year 12 is oversubscribed, after the admission of students with special educational needs where the academy is named on the statement or educational health and care plan, the criteria will be applied in the order in which they are set out below to determine which student should be given priority for the places available on chosen courses, providing they have met the sixth form entry and course requirements for 2018:

1. Looked after children and children who were looked after

---

2. Students for whom it is essential that they be admitted to the academy due to significant medical or social needs

---

3. Sibling (including, half, step, foster and adopted siblings) of those currently on the roll of the academy at the time of admission, not at the time of application

---

**“Choosing to study here was one of the wisest decisions I have ever made. Every teacher ensures we are constantly pushed to strive for the very best so that we receive the maximum opportunity to succeed. I hope to achieve amazing A level results in the summer, which will allow me to receive a place at a Russell Group University.”**

**Morgan, studying A levels in History, Biology, English Literature and Mathematics**

### 6TH FORM OPEN DAY/EVENING DATES

Please contact the academy for further information

## Harris Sixth Form – Homestall Campus **Academy**

**Headteacher:** Ms C Senior

 020 7732 2276

**DfE number:** 210/6908

- › Geography
- › German
- › Government and Politics
- › History
- › Latin
- › Mathematics
- › Music
- › Music Technology
- › Philosophy
- › Physical Education
- › Physics
- › Product Design
- › Psychology
- › Sociology
- › Spanish
- › Theatre Studies

#### GCSE RE-SIT SUBJECTS

- › English
- › Mathematics
- › Health and Social Care
- › Business Studies
- › Science (Double)

### How to apply:

For full details on how to apply, please visit the school's website.

### Academic entry requirements:

#### A levels

- › Minimum of six 9 to 6 grades at GCSE including English Language and Mathematics. Individual subjects may require specific grades in particular qualifications to enable study of a designated course.

#### Level 2 transition courses

- › Minimum of five GCSEs at grade 4 or equivalent including a minimum of three GCSEs at grade 5 or above, one of which must be English or Mathematics.

For further information please refer to the school's post 16 prospectus and application pack.

### Published admission number:

The published admission number for year 12 is 30. This is the number of places which will be offered on an annual basis to eligible external applicants only. If fewer than 95 of the academy's own year 11 pupils transfer into year 12, additional external pupils will be admitted until year 12 meets its capacity of 125.

## Oversubscription criteria 2021 summary:

### Contact academy for full criteria

If year 12 is oversubscribed then, after the admission of students with special educational needs where the school/academy is named on the statement or education health and care plan, the criteria will be applied in the order in which they are set out below to determine which student should be given priority for the places available on chosen courses, providing they have met the sixth form entry and course requirements:

1. Children in public care (looked after children) or children who were looked after but ceased to be so because they were adopted (or became subject to a residence or special guardianship order) i.e. previously looked after.
2. Where professional evidence indicates that there are particular psychological, medical or social needs which the school's learning support faculty agrees only Kingsdale has the capability of addressing or meeting and significant difficulties would arise were the applicant to attend a different school.
3. Students will be ranked by their average point score for their best five qualifying subjects for the course they wish to study.
4. Random allocation. This process will be supervised by a person not employed by or independent of the school (see Note 8 of Kingsdale's admission policy).

## WHAT IS IT LIKE TO STUDY HERE?

**“Opportunity is the word that defines Kingsdale. It is a school that recognises hard work and then rewards it more than proportionately. Throughout my two years sixth form study I have been afforded various opportunities from learning to fly to doing work experience at the United Nations. The high standards set by Kingsdale have enabled me to study at Oxford University next year.”**

Josh, year 13 student

All students are required to have a grade 5 or equivalent in both English and Maths to study A levels or a grade 4 in both English and Maths to study technical subjects.
- › Student are required to have a grade 7 at GCSE to study A level Maths, Physics, Chemistry or Biology.

### Published admission number:

The published admission number for year 12 is 21. This is the number of places which will be offered on an annual basis to eligible external applicants only. If fewer than 90 of the academy's own year 11 pupils transfer into year 12, additional external pupils will be admitted until year 12 meets its capacity of 111.

## Oversubscription criteria 2021 summary:

### Contact academy for full criteria

If year 12 is oversubscribed then, after the admission of students with special educational needs where the school/academy is named on the statement or education health and care plan, the criteria will be applied in the order in which they are set out below to determine which student should be given priority for the places available on chosen courses, providing they have met the sixth form entry and course requirements:

1. Looked after Catholic children or looked after children in the care of Catholic families and previously looked after Catholic children who have been adopted or who have become the subject of a residence or guardianship order who meet the academic entry requirements

---

2. Other Catholic applicants who submit their application by the given deadline and who meet the academic entry requirements

---

3. Other looked after children and other previously looked after children who have been adopted or who have become the subject of a residency or guardianship order and who meet the academic entry requirements

---

4. Other applicants who wish to pursue their education in a Christian context, who support the Catholic ethos of the college and who submit their application by the given deadline and who meet the academic entry requirements

---

In the event of oversubscription in any of the above categories, as long as all students meet the academic entry criteria by subject, then priority will be given to students who firstly have a sibling attending the college and following that by students who live nearest to the college.

#### LEVEL 3 VOCATIONAL SUBJECTS

- › Sport
- › ICT
- › Business
- › Applied Medical Science

### How to apply:

For full details on how to apply, please visit the school's website.

### Academic entry requirements:

#### Academic A level route

- › Both internal and external students must gain a minimum of seven GCSE grades 5 to 9 including English and Maths and grade 6 in the subject to be studied
- › Both internal and external students must achieve the subject specific requirements as stated in the school's course guide (available on the school's website). Typically, this is a GCSE grade 6 in the subject to be studied at A level.

#### Vocational BTEC route

- › Internal and external students must gain a minimum of grade 5 in English and Maths and three other GCSEs grades 5 to 9

### Published admission number:

The published admission number for year 12 is 30. This is the number of places which will be offered on an annual basis to eligible external applicants only. If fewer than 70 of the school's own year 11 pupils transfer into year 12, additional external pupils will be admitted until year 12 meets its capacity of 100.

### 6TH FORM OPEN DAY/EVENING DATES

Please contact the college for further information

## Oversubscription criteria 2021 summary:

### Contact school for full criteria

Applicants with an education, health and care plan (EHC) will be eligible for admittance in accordance with section 324 of the Education Act 1996.

The oversubscription criteria only applies to external applicants. If there are more applications than places available in the published admission number, (20 places), the criteria will be applied in the following order to determine which students should be offered places. After applicants with an EHCP, places will be offered in the following priority order:

1. Applicants who are looked after children and other previously looked after children who have been adopted or who have become the subject of a residence or guardianship order. Please note that children in private fostering arrangements are not considered looked after children.
2. Applicants who are baptised Catholics.

3. Applicants who have a sibling currently at St Thomas the Apostle College. (For example, the sister of a current pupil at the College). This would include step siblings, adopted siblings and half siblings living permanently at the same address.

4. Applicants whose permanent residence is closest to the College. This final criteria will act as a tie-breaker for two otherwise identical applicants. If two or more applicants are deemed to live at identical distance from the College, places will be decided by the drawing of lots.

In the event that a course is oversubscribed (typically more than 15 successful applicants to an A level class, 12 students per BTEC class) places will be offered on alternative courses that have spaces available. Students will fill a course allocation in order of GCSE average points score (APS) order in best eight GCSEs. Every effort will be reasonably made to accommodate all successful applicants' combination of course choices.

## WHAT IS IT LIKE TO STUDY HERE?

**“Joining STAC sixth form was the best decision I made for my education after year eleven. I’ve had so much support whilst being surrounded by like-minded, ambitious peers and supportive teachers with high expectations of us all. The opportunities for work experience, UCAS advice, enrichment experiences has been amazing as it has built my confidence enormously.”**

Tarela Jesse, Year 12

#### LEVEL 3 SUBJECTS

- › Sport
- › BTEC Health and Social Care

### How to apply:

For full details on how to apply, please visit the academy's website.

### Academic entry requirements:

#### Level 3 study

- › All students will have to meet the basic entry requirement of four GCSE grades 9 to 5 including English and Maths at grade 4 and must also meet individual subject requirements.
- › For more information please view the City of London Academy's sixth form brochure.

#### Sports specialism in basketball

- › Prospective students in years 12 and 13 are able to complete a skills based assessment that evaluates their skills in basketball. Each year the academy is able to allocate up to ten places to students through this specialism. Students will be selected on the basis of our sports specialism in basketball, based on skills based assessment.
- › Please note the tests are open to all applicants. This test will take place at the City of London Academy.

### Published admission number:

The published admission number for year 12 is 25. This is the number of places which will be offered on an annual basis to eligible external applicants only. If fewer than 175 of the academy's own year 11 pupils transfer into year 12, additional external pupils will be admitted until year 12 meets its capacity of 200.

## WHAT IS IT LIKE TO STUDY HERE?

“I love the City of London Academy and enjoy studying here. Students have access to a wide range of opportunities, preparation for the world of work and are offered various trips. We are fully prepared and support for the next stage of our lives.”

## Financial support

As a 16 to 19 year old student you may be able to get help with money. There are different types of funding you may be able to claim.

### 16 to 19 bursary fund

There are two types of 16 to 19 bursary:

#### Vulnerable student bursary

You could get a bursary worth up to £1,200 depending on your circumstances.

<https://www.gov.uk/guidance/16-to-19-bursary-fund-guide-2020-to-2021-academic-year>

This group includes:

- › People in care
- › Care leavers
- › People claiming income support
- › Disabled young people who receive Employment Support Allowance and Disability Living Allowance

#### Discretionary bursary

You could get a discretionary bursary if you need financial help but don't qualify for a vulnerable student bursary. Your education or training provider decides how much you get and what it's used for. Some providers also offer one off payments to cover study trips or travel for university interviews

#### How is your bursary is paid?

Your education or training provider will decide how you get your bursary. You might be:

- › Paid in full or in installments
- › Paid in cash, by cheque or through a bank account
- › Given things like a travel pass, free meals or books instead of money

Some providers also offer one off payments to cover study trips or travel for university interviews.

Your provider will set conditions that students should meet to receive a bursary, for example, linked to behaviour or attendance and your bursary can be stopped if you break their rules.

For more information please visit [www.gov.uk/guidance/16-to-19-education-financial-support-for-students](http://www.gov.uk/guidance/16-to-19-education-financial-support-for-students)

### Benefits

The general rule on benefits is that if you are under 18 you cannot make a claim for any benefits.

Your parents/carers will still get any child benefit or other benefits they already receive as long as you are under 19 and in full time education. If you are not engaged, and not meeting the Raising the Participation Age (RPA) requirements, benefits may be stopped.

If however you are living away from your parents, out of necessity, or have family to support, you may be able to make a claim.

For more information contact your local JobCentre Plus **0345 606 0234**.

### Care to learn

You can claim Care to Learn if you are under 20, caring for your own child and doing a school and college course or training programme that receives public funding (fathers are eligible if they are the main carers). An application can be made as soon as you have a confirmed offer of a course.

For more information please go to [www.gov.uk/care-to-learn](http://www.gov.uk/care-to-learn)

### Dance and Drama Awards (DADA)

These are available at a number of accredited dance and drama schools. The professional courses cover acting, dance, musical theatre and production skills. You must be 16 or over and show talent and a likelihood to succeed in the industry.

A Dance and Drama Award can help you pay for your tuition fees and towards living costs. The amount you get depends on your household income and where you live and study. For more information on these awards check:

[www.gov.uk/dance-drama-awards](http://www.gov.uk/dance-drama-awards)

## Other support

### Travel

The support that Transport for London (TfL) provide with travel costs is currently under review, please check the TfL website for latest information:

<https://tfl.gov.uk/info-for/schools-and-young-people/travel-guidance-for-schools?cid=reopeningeducation>

### Additional funding

If you are facing difficulties some learning providers do have additional funding to help pay for books, equipment of field trips. You can discuss this with your tutor or student support department

Other allowances may be available on other work-based learning courses.
